

To Whom it May Concern

This email is to confirm that American Janitorial has worked for Baldwin & Shell Construction to clean buildings after construction is complete.

A couple of the larger projects they have cleaned were :

New Maumelle High School in 2011, 246,000 sf

New Arkansas State Hospital in 2008, 148,000 sf

They have always done a good job for us and we have no reservations about using them in the future.
